

# Dispatch

Efficiently create and manage dispatches with integrated real-time and historic tracking and telematics

## Motive gets results

**21%**

Less time spent planning and scheduling dispatches (8.3 hrs saved weekly per individual)

**35%**

less time on manual processes across the platform

**1.6B**

miles driven per month by Motive customers

**Gary Overturf**  
Logistics Manager  
[Southland Steel Fabricators](#)

**“We’ve eliminated a week’s worth of time every month spent running around trying to find information. I have complete visibility into my operations with Motive Dispatch.”**

## How it works

Create plans, assignments, and dispatches

Easily communicate and update status

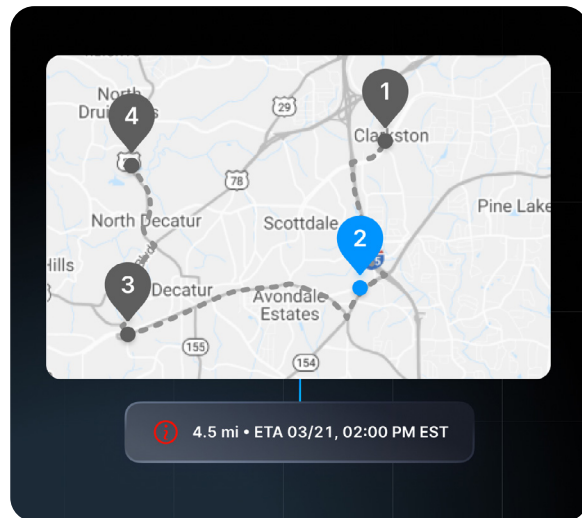

Organize documents and automate reports

## Route planning with map view

Streamline daily operations with automated scheduling and real-time updates

### The Motive Difference

- Generate higher number of dispatches per driver and vehicle vs manual workflows
- Make decisions and take actions more quickly on acceptance and assignment.
- Provide more predictable schedules to drivers

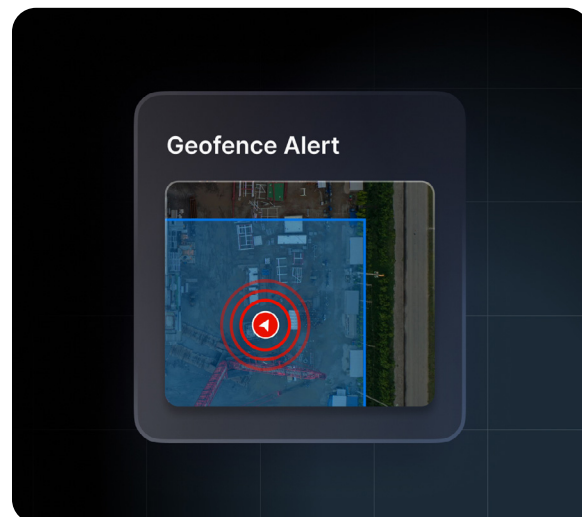

## Advanced tracking and visibility with fleet view

Produce automated arrival and departure times for quicker, more accurate updates to customers

### The Motive Difference

- Get assurance the right loads are going to the right places with Asset Gateway Mini
- Incorporate traffic and weather information in ETA for higher accuracy
- Use geofencing for alerts and delivery confirmation

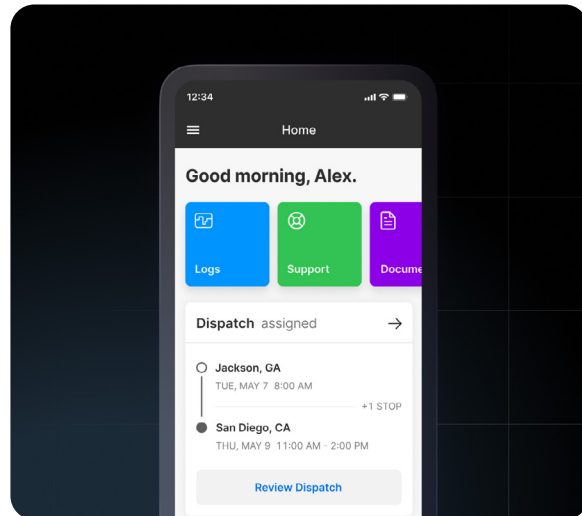

## Mobile workflow for drivers

Get clear, easy to follow information on route assignments and updates

### The Motive Difference

- Enhance driver-dispatch communication through integrated messaging
- Minimize paperwork by making it easy to upload photos and complete forms
- Make schedules more predictable and management

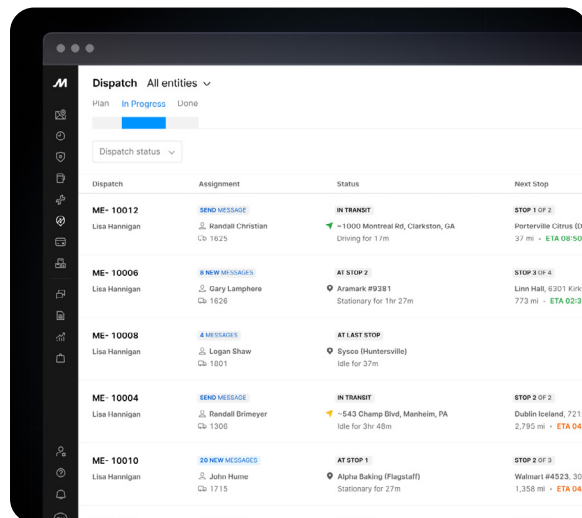

## Get detailed insights on routes and operations

Optimize fleet utilization with detailed insights into overall operational performance

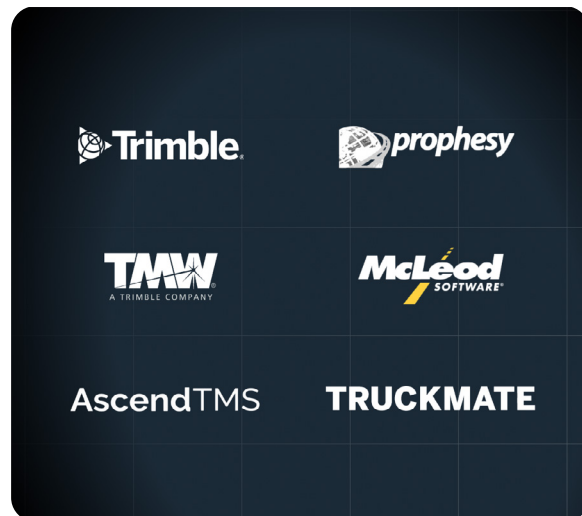

### The Motive Difference

- Enhance the ability to track and resolve issues promptly
- Reduce operational costs through improved route planning
- Combine with AI Dashcam for images during and after route completion

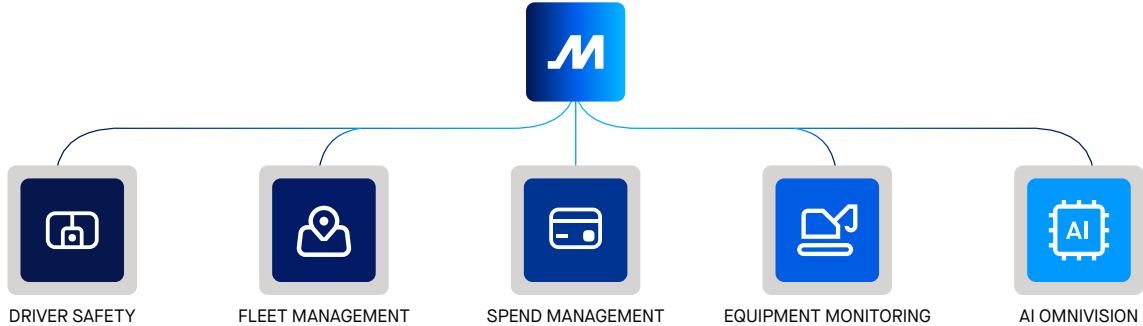

## Option to integrate Motive Fleet Management with third-party Transportation Management System (TMS)

- Customizable, two-way integration available in App Marketplace
- Track, share ETA, and generate alerts on dispatch status
- Capture fuel and location data from Motive to produce IFTA reports

---

Motive is the AI-powered Integrated Operations Platform for the physical economy.

# Motive

## About Motive

Motive builds technology to improve the safety, productivity, and profitability of businesses that power the physical economy. The Motive Automated Operations Platform combines IoT hardware with AI-powered applications to automate vehicle and equipment tracking, driver safety, compliance, maintenance, spend management, and more. Motive serves more than 120,000 businesses, across a wide range of industries including trucking and logistics, construction, oil and gas, food and beverages, field services, agriculture, passenger transit, and delivery.
