

**motive**

# Dual-Facing AI Dashcam Plus

See more. Act faster. Prevent more accidents. Get unmatched AI capabilities, hands-free communication, and superior reliability in one unified device.

## The Motive difference

### Industry-leading AI processor

Can run 30+ AI models with 3X more processing power than other leading dash cams.

### Stereo vision

Two road-facing lenses improve depth perception for more accurate alerts. *Coming late 2026.*

### Automated License Plate Recognition

Clearly identify vehicles in hit-and-runs, road rage, and theft incidents. *Coming soon.*

### Live two-way calling

Connect with drivers instantly to address time-sensitive issues like fatigued driving.

### AI Voice Assistant

Drivers can get answers and take actions hands-free while driving. *Coming soon.*

### AI Automations

Drivers get alerts to address critical fault codes, reduce unnecessary idling, and more. *Coming soon.*

### Superior reliability in one unified device

Improve reliability with the Vehicle Gateway and AI Dashcam combined into one device.

## Key features: Driver Safety

Requires a Driver Safety monthly subscription.

---

### Safety event capture

- **Core risk**
  - Close following
  - Unsafe lane change
  - Lane swerving - *Coming soon*
- **Traffic signals & signs**
  - Stop sign violation
- **Awareness**
  - Cell phone usage
  - Distraction
  - Seat belt violation
  - Smoking
  - Eating
  - Obstructed camera
  - Drowsiness - *Coming soon*
- **Other**
  - Collision
  - Near collision
  - Forward collision warning - *Coming soon*
  - Unsafe parking
  - Forward parking - *Coming soon*
- **Speeding**
  - Speeding over posted
  - Speeding over policy
- **Harsh driving**
  - Hard braking
- Hard acceleration
- Hard cornering
- **Positive driving**
  - Safe distancing
  - Alert driving
- **In-cab audio and visual alerts**
  - Close following
  - Unsafe lane change
  - Stop sign violation
  - Cell phone usage
  - Distraction
  - Drowsiness - *Coming soon*
  - Seat belt violation
  - Eating - *Coming soon*
  - Obstructed camera
  - Forward collision warning - *Coming soon*
  - Speeding over posted
  - Speeding over policy
  - Hard braking
  - Hard acceleration
  - Hard cornering
  - Unidentified trip
  - Dash cam disconnect/activation

---

### Event validation

- EVE Event Validation Engine
- Motive Safety Team

---

### Driver coaching

- Safety Hub
- Custom unsafe behavior detection
- Event Severity
- AI Coach
- Driver App coaching
- Coaching Sessions
- Training videos
- Customizable Safety Score
- Real-time Face Match (not available in IL)

---

### Accident management

- Collision detection and video upload
- Video recall: Up to 15 minutes/request (60 minutes with timelapse recall)
- Automated collision reporting
- First Responder

### 360-degree visibility

- Live streaming
- Live images
- Engine-off recording - *Coming soon*
- In-cab audio recording
- Camera health (installation issues, disconnects, etc.)
- Driver Privacy Mode

### Key features: Fleet Management

Requires a Fleet Management monthly subscription.

---

### Tracking & Telematics

- Live map view
- Trip history
- Vehicles
- Drivers
- Geofences
- Dispatch
- Driver identification
- GPS mode (Zero telematics mode)
- Hardwired mode - *Coming soon*
- PTO/AUX - *Coming soon*

---

### Compliance

- ELD US compliance
- Data for IFTA reporting
- ELD Canada compliance

---

### Sustainability

- Energy usage
- Idling
- Fuel performance
- CO2 estimates
- Fuel levels

---

### Maintenance

- Fault codes
- Scheduling based on engine hours or mileage
- Driver Vehicle Inspection Report (DVIR)
- History

### Technical specs

---

| Camera        | Road-facing Wide    | Road-facing Zoom    | Driver-facing                     |
|---------------|---------------------|---------------------|-----------------------------------|
| Resolution    | 1920 × 1080 (1080p) | 2560 × 1440 (1440p) | 1920 × 1080 (1080p)               |
| Frame rate    | 30 fps              | 10 fps              | 15 fps                            |
| Field of view | 120°                | 40°                 | 150°                              |
| Low light     |                     |                     | Night vision with IR illumination |

|   |  |
|---|--|
| Model #                                     | DC-64  |
| AI processor                                | Qualcomm® Dragonwing™ QCS6490  |
| Battery capacity                            | 2500mAH  |
| Dimensions                                  | Width: 5.43 in (138 mm)      Height: 1.20 in (30.4 mm)<br>Depth: 3.62 in (92 mm)      Weight: ~1.1 lbs (500 g) |
| Operational temperature                     | -4°F to +140°F (-20°C to +60°C)  |
| Mount                                       | Windshield mount   |
| Cable length                                | 13.1 ft (4 m)  |
| Quick Capture button                        | Yes  |
| Connectivity                                | 4G LTE, Bluetooth, Wi-Fi   |
| Microphone                                  | Digital Omnidirectional  |
| Speaker                                     | 90 dB SPL  |
| Multi-color LED light bar for in-cab alerts | Yes  |
| Privacy lens cover                          | Yes, additional accessory  |
| Recording hours                             | Up to 160 hours  |
| IP rating                                   | IP5X   |
| Warranty                                    | Lifetime (with continuous, active Motive subscription)*  |

\*Lifetime coverage requires a continuous, active subscription with Motive. Cables and mounts have a one year warranty.

### Requirements

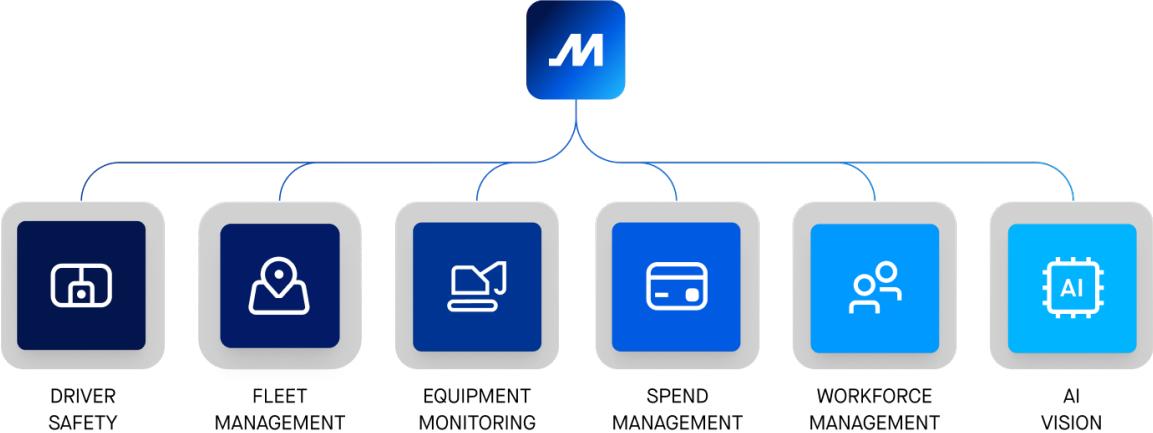

These following prerequisites must be met in order to use all the safety features available within the Motive platform.

---

|                             |  |  |
|-----------------------------|--|--|
| <b>Motive subscription:</b> | • All features - Driver Safety and Fleet Management plan | • AI Coach - Workforce Management plan |
|-----------------------------|--|--|

---

Motive is the AI-powered Integrated Operations Platform for the physical economy.

#### About Motive

Motive empowers the people who run physical operations with tools to make their work safer, more productive, and more profitable. For the first time, safety, operations, and finance teams can manage their workers, vehicles, equipment, and fleet-related spend in a single system. Motive serves nearly 100,000 customers from small businesses to Fortune 500 enterprises, across a wide range of industries including transportation and logistics, construction, energy, field service, manufacturing, agriculture, food and beverage, retail, waste services, and the public sector.
